SUMMARY

Relationship-builder who ships. Path runs real estate → oil & gas crews → coding and AI. Operator Goods (operator apparel + Notes/Lexicon on the agent loop) is the current build. I learn fast in messy environments, keep judgment at the gate, and ship in public from Grand Valley, Ontario.

SKILLS

Customer conversations · negotiation · crew leadership · TypeScript · React · Python · Vite · Vercel · Shopify / Hydrogen patterns · xAI / Grok APIs · agent loops · digital ads / funnel building

PRODUCT

Operator Goods — storefront + Notes

2026 – Present

Independent · operator apparel & desk kit · Notes + Lexicon (Call, Gate, Scaffold, Charter, Taste, Judgment)

- Building a Vite/React storefront (Hydrogen-react patterns) for operator gear; weekly field Notes on Assign → Execute → Review.
- Shipped a Lexicon so shared operator terms stay defined once; Shopify Storefront API linking in progress.

SIDE PROJECTS

- Shipped MakerLog, Regex Forge, GrokSim, and Grok DOOM as supporting / experimental tools.

EXPERIENCE

Team Lead, Confined Space Monitoring Technician

2023 – 2025

Evolved Industrial · Fort McMurray, AB

- Led confined-space monitoring crews: rig-in/out, ventilation and gas-detection troubleshooting, and on-the-job training.
- Ran long shifts in all weather, physically demanding work, with a clean driving and safety record — zero incidents.

Managed Pressure Drilling Operator (promoted to night supervisor)

Sep 2018 – Mar 2021

Beyond Energy · Calgary, AB / field

- Operated and maintained MPD chokes, vessels, manifolds, flare stacks, and associated equipment; wrote JSAs and field hazard assessments.
- Promoted to night supervisor of choke operations by year two for holding downhole pressure, cutting fluid losses, and running safer, more efficient jobs.
- Worked a 48-hour problematic rig-in so the company could stay on schedule; routinely 12+ hour days in −40 °C to keep commitments.

Crew Leader

May 2018 – Sep 2018

Knights Spraying · Vermilion, AB (Pembina pipeline contract)

- Led 16 people on the Pembina pipeline vegetation-management contract; coordinated crews and logistics across 25 contracted projects (Fox Creek, Whitecourt, Edmonton, Calgary, Onion Lake).
- Daily safety meetings, productivity reports, and driving logs. Crew culture of accountability contributed to the company's most profitable year to date and a two-year contract extension.

Real Estate Agent

2013 – 2017

Sutton Group (~2 years); RE/MAX Realty Specialists (~1.5 years) · St. John's, NL

- Built an independent practice across two brokerages on Facebook ads, Google PPC, and a market-education website — prospecting, follow-up, presenting, and closing.
- Negotiated multi-party purchase and sale contracts. Outstanding sales award for more than $85,000 in commissions.

Student Support Specialist

Nov 2009 – Dec 2011

Distance Education and Learning Technologies, Memorial University · St. John's, NL

- Promoted to a permanent role after IT / digital-media support at the Commons. Managed up to four student interns per semester.
- Administered the university LMS. Authored 30+ technical knowledge-base articles so new hires could follow procedures without missing steps.

EDUCATION & TRAINING

- Bachelor of Business Administration — Memorial University of Newfoundland, St. John's, NL.
- Dale Carnegie, Effective Communications and Human Relations (13-week program). Digital marketing (Facebook ads, landing pages, email, funnels) — Infinitus. Sales process — Cardone University; Tom Ferry (real estate).
- Earlier: promoted from customer-service agent to instructional designer within 12 months at Convergys (St. John's); construction and a plumbing apprenticeship (Red Maple Development; BMP Mechanical).
